National Walk Safely to School Day – Friday 18th May
Now in its 13th year, National Walk Safely to School Day encourages parents, carers and children to build regular walking to and from school into their daily routine. On this day we encourage all children to walk to school with their parents and carers if needed. If you must use the car, leave it a good distance from the school and walk the rest of the way. We all know children need a minimum of 60 minutes regular activity per day and all the research shows that regular exercise before school aids improved learning. Two good reasons to walk to school on 18th May and possibly start a new and positive routine for your family.

School Improvement
As a school we are always trying to get better at what we do. This year’s Site Improvement Plan has been finalised, and over the rest of this term we will share aspects of the plan with the whole school community.

Our major focus in 2012 continues to be improvements in literacy. Whole school, targets are:
Whole school
- 95% of students without identified disabilities, achieving the National Minimum Standard in each aspect of literacy
- A 10% improvement in MAS students matching number of students in upper national reading band and a 10% decrease in student in lower bands of NAPLAN

One of our key strategies for Early Years improvement is by our involvement in the Early Years Literacy Research Project. Moonta Area School along with
several other Sites in the Yorke & Mid North are participating in a very exciting action research project with Associate Professor Deslea Konza from Edith Cowan University.

Shelley Hier, Sophie Reid, Jenny Clow & Jane McCauley are all working with Delsea. The research project is about using an explicit instructional cycle to introduce and reinforce letter-sound knowledge consistent with a synthetic phonics instructional approach; using decodable texts and other literacy practices to build vocabulary and oral comprehension. Essentially the focus is on

- implementation of synthetic phonics program
- teachers & SSO’s working with Deslea Konza re training, classroom observations, feedback
- data collection to quantify the impact of the program, explicit teaching, professional learning
- focusing on R/1 teachers, SSO’s and students
- discussing ongoing assessment results
- increasing frequency and intensity of instruction through small group and individualised instruction

Our aim is have a Moonta model, that all teachers in the Early Years will use to improve staff capacity and capabilities in the area of Phonics instruction in the early stages of learning to read.

2YP Clinic trial now open – Support for Youth In Upper Yorke

A service aimed at supporting health issues for youth has begun operating in Kadina. The 2YP clinic is for young people 12 – 25 and is open 1 – 6 p.m. every Wednesday at the YPDGP consulting rooms, Port Road, Kadina.

Services include access to; Clinical Psychologist, Youth At Risk, Nurse Practitioner, Mental Health Social Worker, DASSA and CAMHS.

During 2YP opening hours there is an open clinic, one professional will be available for young people or other professionals to talk, either by popping into the consult rooms, or by phoning the YPDGP offices on (08) 88 214 066 at which time a message will be left with the open clinic to call you back.

Have you changed your address or phone number?

If you have changed your address or phone number this year, could you please advise the front office staff of your new contact details. It is very important to have our information accurate in case of an emergency.

Earn & Learn

From Wednesday 9th May, you can start collecting stickers at Woolworths supermarket to place on your child’s sticker card. There’ll be one sticker for every $10 spent, excluding purchases of liquor, smoking/tobacco products and gift cards. Once completed, simply drop the sticker card into a collection box, either at school or at Woolworths.

All community members can help support our school simply by dropping their stickers into our collection box found at the front of the store. Last year the school gained significant resources out of this scheme.

SA Public Teaching Awards

Celebrating inspiring teaching

Nominations are now open for the SA Public Teaching Awards.

Don't miss your chance to nominate an outstanding education professional of the South Australian public education system.

The SA Public Teaching Awards aim to recognise and reward dedicated teachers, education leaders and support staff who have made an inspirational contribution to young South Australians.

To nominate a member of our school go to: www.decs.sa.gov.au/teacherawards

Facebook & the Law

Facebook continues to be a medium we are all still coming to terms with. I have come across some information in regards to Facebook and other mobile devices and the law. I am sure you and your children will find this information useful.

All users must be over the age of 13 to access Facebook. When signing up you are required to acknowledge that you ‘understand the terms and conditions’ of using the social network site, one of which is to be at least 13 years of age.

Photos on the internet: You must have permission of all the people in the photo before you post it online.

Where the Law comes in: Bullying/Using a website to insult another person:

Creating a Facebook page containing photographs of
a person, the location of their house, multiple posts from other persons or yourself who leave incorrect, offensive and grossly defamatory statements about a person

**Criminal Defamation** — Maximum penalty: imprisonment for 3 years.

Constantly sending emails to a person at school you don’t like because you want them to be scared and fear you

**Unlawful Stalking** — Maximum penalty: imprisonment for 3 years.

Constantly sending messages to a person on their mobile phone saying threatening things or harassing or sending defamatory comments

Using a Carriage Service to Menace, Harass or Cause Offence — Maximum penalty: imprisonment for 3 years.

**Whilst these are extremes, it is important for our students to know that bullying and harassing is a serious issue both at school and home. They also need to be aware that the police are required to act in serious cases.**

**Tips for students.**

*The ‘Mum Test’:* If you wouldn’t like to repeat what you said in front of your mum, dad or grandparent, then you probably shouldn’t say it to anyone.

*The ‘Butterfly Test’:* We sometimes get butterflies in our stomachs when we feel good about something like winning an award, speaking in front of assembly etc. We also can get butterflies when we see or hear something bad. So if you are getting the ‘bad’ butterflies whilst surfing the net or reading an email — tell an adult straight away.

*If it sounds too good to be true — it usually is!*: If someone contacts you, offers you a gift or money for doing something, get an adult straight away. This is how scams try to get you. Under no circumstance give your details to someone, never tell them your full name, address or phone number. If someone asks for this, get an adult straight away.

**Tips for parents:**

*Be Involved:* Put the computer in public area where you can keep up to date with your child’s activities and you can also find out about what they are using it for and what they are interested in. Don’t allow internet access in their bedrooms.

*Communicate:* Talk to your child about what they are doing on the computer and sit with them and help them find information. Let them know that if they find something inappropriate they are to tell you and reassure them that they won’t get in trouble; rather you’ll be glad they let you know.

*Internet safety:* There are some excellent government websites and resources. You can get a free internet filter — a program that prevents suspect material from going to your computer and lots of great advice on computer safety from [www.netalert.gov.au](http://www.netalert.gov.au) and [www.cybersafety.gov.au](http://www.cybersafety.gov.au).

**Japanese Homestay**

Our annual visit of Medai High School students from Japan will occur again next term. This is a tremendous program which allows our students to mix and learn from students who are from a completely different culture. This experience can be extended to a whole family if you host one of the students during their stay. Whilst we have some families already keen to be involved, there is room for more. If you are at all interested I ask you to contact Tricia Stringer in the library for more information.

**Pupil Free Day – Friday 8th June**

A reminder to all students & parents that we will be having a Pupil Free Day Friday Week 7, the 8th June. On this day we will be working with all schools in the Northern Yorke area on the implementation of the Australian Curriculum.

Kind regards

Dean

Last Friday, 4\textsuperscript{th} May, 43 of our students travelled by bus to Kadina, where Harvest Christian School hosted the annual YP Cross Country.

The weather was kind to us for the day’s competition and the excellent behaviour and enthusiasm of the students added to the enjoyment of the event.

Prior to the start of the events, all students walked their respective courses.

The competition began with the 7 year olds (1km) and progressed through the age groups to the 12 years and older age group (3km).

Well done to all of our competitors for their efforts. Their teamwork and encouragement of each other was fantastic.

No team events were held this year.

Congratulations go to the following students for excellent results in their age category:

- **5, 6, 7 year old Girls**
  - 1\textsuperscript{st} place: Brooke Irlam
  - 3\textsuperscript{rd} place: Mackenzie Jones

“High Tea” at the Moonta Bowling Club as a fundraiser for the Moonta Hospital

The Year 12 Hospitality students have been researching which foods are a high risk to customers and how to handle them safely. They were also required to produce two dishes that contained high risk foods, suitable to be served as a finger food for a function. With this in mind, it was an ideal opportunity, when approached, to put theory into practice and actually cater for an event. A group of former staff members from the school had got together with the idea that they could present a “High Tea” at the Bowling Club to raise money for equipment at the local hospital. They required the students to provide savoury finger food for 100 guests.

This event took place last Friday afternoon (4th May, 2012) and was a huge, sell out, success. The students prepared their food at the school and transported it to the Bowling Club. They plated and served the savoury food.

The students were to be commended on the quality and presentation of their food.

**Congratulations to Barb’s Year R/1 class for their great reading.**
Barb’s class was the first Junior Primary class to all complete Premier’s Reading Challenge and were treated to a lesson in the Gym with Mr Angus.

Why is children’s television important?
As you may or may not be aware, Moonta Area School is an Advisory School for the Australian Children’s Television Foundation (ACTF). As one of 14 schools across Australia, Moonta Area School is fortunate enough to receive the latest resources from the ACTF to implement in classrooms. Many of these programs are also able to be viewed at home on the various ABC television channels (Think – My Place, Animalia, Noah and Saskia, Round the Twist, Backyard Science, etc.).

I have included below a brief rationale on the importance of children’s television. I hope that this will help you see some of the positives of moderated television viewing.

**Why is children’s television important?**
Children’s television gets a lot of bad press. The media is full of alarming reports about how much television children watch, how much violence children witness through television, and how television advertising might be linked to the obesity crisis...

But it's important to look at the positives, too. Most adults have fond memories of the television programs they enjoyed as a child – programs that became part of a shared culture, like other forms of storytelling. Good television programs are a vital part of our culture; and it is important to encourage children to become discerning viewers with good viewing habits.

Hence, the ACTF focuses on creating high-quality programs made especially for Australian children. The programs that they develop, support and distribute explore a wide array of themes that are relevant to children, such as:

- Family and a child’s place in it
- The fun, trials and tribulations of growing up
- Being embarrassed by your parents
- Relationships
- The use of fantasy and imagination in kids’ lives
- Superheroes
- Sport
- History

The ACTF’s guiding principle is that they always look at these issues from a child’s perspective. This means that most of the content is engaging and relevant for young people today.

School uniforms
If anyone has school uniforms they no longer require, they can be dropped off at the front office. We are seeking clean, reasonable quality, used or new uniforms, especially jumpers and long pants.
With Mother’s Day approaching we would like to acknowledge the wonderful support mothers provide in their child’s reading development. Amongst all the wonderful things that mothers do you should hold reading with your child, whatever their age, as one of the most valuable.

Gillilan Strickland an American Poet penned a poem about this important role. It’s a long poem but has the following often quoted verse.

*You may have tangible wealth untold; Caskets of jewels and coffers of gold. Richer than I you can never be – I had a Mother who read to me.*

Happy Mother’s Day to all the mothers and next newsletter we will have suggestions for supporting you with those reluctant teen readers.

Thursday 29th March the Choir took part in their first assessment as a part of the Festival of Music program this year. They were assessed along with the Kadina Primary School and Port Broughton Area School where they received an ‘A’ for their performance and hard work. Well done!

The same day, the Woodwind students (Sax, Flute and Trumpet) took part in an all day music camp with Kadina Primary and High students at Kadina’s Ascot Theatre. Teachers Sarah Bull from Orrorroo and Lyn Sheridan from Crystal Brook were there to lead the combined schools in an orchestra rehearsal after sectional rehearsals. A great day was had by all!
Dear Parents/Carers,

Second round of Immunisations for Year 8 students are being offered over the next couple of weeks. Parents of Year 9 students should have received their consent forms and if you can return them to the school as soon as possible it would be appreciated. Any queries please feel free to give me a call on 88 214 066.

**Missed doses**
We will try to catch up missed doses at school where possible. If we are unable to catch up doses, parents or carers will receive a letter explaining what to do.

**Year 8**

- **Hepatitis B** – this consists of 2 immunisations at least 4 months apart. Not required if the child has had a previous course.
- **Varicella – chickenpox.**
  1 dose is offered. Not required if the child has had chickenpox or previously been vaccinated.

- **Human papillomavirus**
  (Female Students Only) – 3 dose schedule using Gardasil vaccine

**Year 9**

- **Adult/adolescent diphtheria, tetanus and pertussis (whooping cough)**
  1 dose only required. This vaccine is especially important due to the tetanus and whooping cough booster. It can be given even if a tetanus vaccine was given recently. Doses close together however does increase the chance of having a sore arm after the injection.

Kind regards
